PROFESSIONAL SUMMARY

Results-oriented Python Full-Stack Developer with hands-on experience building and deploying production-ready web applications using Django, Django REST Framework, PostgreSQL, and modern frontend technologies. Proficient in RESTful API design, database architecture, cloud deployment (AWS EC2, Nginx, Unicorn), and Firebase integration. Trained at Brototype with a 100% project-driven approach, delivering real-world solutions including e-commerce platforms, business management systems, and dynamic portfolio websites.

TECHNICAL SKILLS

Languages	Python, JavaScript, HTML5, CSS3, SQL	Backend	Django, Django REST Framework
Frontend	React, Bootstrap, Tailwind CSS	Databases	PostgreSQL, MySQL, SQLite, Firebase
DevOps & Cloud	AWS EC2, Nginx, Unicorn, Git	Tools & APIs	Postman, VS Code, Linux/Bash

PROJECTS

Shoedrop | E-Commerce Platform

Django, DRF, PostgreSQL, Tailwind, AWS

- Engineered a full-featured online store with product catalog, shopping cart, order management, and admin dashboard.
 - Integrated user wallet system with payment gateway, order cancellation, and automated refund logic.
 - Designed RESTful API endpoints with JWT authentication for secure user and admin operations.
 - Deployed on AWS EC2 with Nginx reverse proxy, Unicorn WSGI, and SSL configuration.
- GitHub

Catering Management System

Django, PostgreSQL, Bootstrap, PWA

- Created a comprehensive business management tool for catering operations with staff, order, and menu management.
- Architected staff management module with role-based access control and administrative CRUD operations.
- Enabled Progressive Web App (PWA) capabilities with offline support and installable download page.

Developer Portfolio Website

HTML5, CSS3, JavaScript, Firebase, Vercel

- Developed a dynamic portfolio with Firebase-powered CMS admin panel for real-time content management.
- Built custom admin dashboard with project CRUD, skill ordering, color selection, and image upload features.

Lumen Films | Creative Agency Website

React, Vite, Django, DRF, Docker

- Crafted a modern agency landing page with GSAP scroll animations, cinematic hero sections, and responsive design.
- Established Django REST Framework backend for portfolio, team, and service data management.
- Configured Docker Compose for containerized full-stack development environment.

EDUCATION

Full-Stack Python Development (Self-Paced Training)	2025 - Present
Brototype, Kerala Project-Driven Industry Training	
Bachelor of Commerce (B.Com)	Graduated
Sullamussalam Science College, Kerala	

KEY STRENGTHS

- Backend-first architecture and API design thinking
 - Self-learner who explores tools and frameworks independently
 - Experience with production deployment pipelines
- Strong problem-solving and debugging skills
 - Clean, maintainable, and well-documented code
 - Collaborative and adaptable team contributor
